DETAILED ACTION

1. In response to applicant's request, the last restriction requirement is now withdrawn, and all claims (**19-21, 28-38, & 43-75**) are pending and allowable over prior arts of record for the following reason:

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior arts submitted by applicant fail to teach or fairly suggest a method for using a floating gate transistor having an amorphous silicon carbide insulator which includes the steps of "storing data by changing a charge of the floating electrode", "reading data by detecting a current between a source and drain in a substrate" and "refreshing data based on data charge retention time of the floating gate transistor that depends upon the barrier energy at an interface of the floating gate electrode and the gate insulator". The improvement consists of data charge retention time on the floating gate is reduced.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
